

ENABLING WI-FI ON YEALINK PHONES

Here's how to connect to your Wi-Fi network on your Yealink. These instructions apply to all Yealink wireless-capable phones:

1. Go to Menu > Basic > Wi-Fi
2. On Yealink T53, go to Menu > Settings > Basic Settings > Wi-Fi
3. Choose [x] Available Network[s], "x" being the number of available networks
4. Choose Enter
5. Choose the desired Wi-Fi network
6. Choose Connect
7. Enter the password
8. Choose Ok

Here's how to add a Wi-Fi network manually:

1. Go to Menu > Basic > Wi-Fi On Yealink T53, go to Menu > Settings > Basic Settings > Wi-Fi
2. Choose Known Network[s]
3. Choose Add Choose the appropriate Security Mode
4. Enter the Wi-Fi network name, password and, other applicable information
5. Choose Save
